

Responses to Questions per RFQ No. 2018CBCAPPILOT001

1. May one or two schools be targeted in a school district or would all schools in the school district need to be targeted?

For the initial funding period, one or two school may be targeted. However, it is the intent to have services available to the whole school district by the end of all renewal periods. If one or two schools are targeted, it is suggested that elementary and middle schools be targeted.

2. Will expenses be reimbursed for implementation of an evidence-based practice model, such as training and materials for staff?

Through the grants funds awarded, these are appropriate and acceptable expenses for reimbursement.
